FV is the fair value of the tangible personal property at the time it was purchased, manufactured or produced by the vendor.

(3) Tax payable under subsection (2) shall be paid for each full month of temporary use and for each part of a month consisting of thirteen or more days, calculated for the time that the tangible personal property was put to the temporary use.

(4) Where the tangible personal property is a motor vehicle as defined in the *Highway Traffic Act* manufactured or produced by the vendor, the vendor shall pay, in addition to the tax payable under subsection (2), the tax levied under sections 3 and 4 of the Act in full at the time that the motor vehicle is first put to a temporary use.

(5) Tax payable under this section shall be remitted at the times and in the manner specified in Regulation 1013 of Revised Regulations of Ontario, 1990, for the delivery of returns and the remission of tax due by the vendor.

(6) Where the vendor continues to use the tangible personal property for longer than twelve months, the vendor shall pay tax at the rate specified under section 2 of the Act on the fair value of the tangible personal propery at the time it was purchased, manufactured or produced by the vendor less the tax paid or payable under subsection (2).

(7) Tax payable by the vendor under subsection (6) shall be remitted on or before the due date of the next remittance required to be made under Regulation 1013 of Revised Regulations of Ontario, 1990 in respect of the first remittance period following the end of the twelve-month period.

(9) Despite this section, where the tangible personal property is taken out of inventory and capitalized as a fixed asset in the books and records of the vendor, tax is payable under section 2 of the Act on the fair value of the tangible personal property and under sections 3 and 4 of the Act at the time it was taken out of inventory. O. Reg. 784/92, s. 1, *part.*

15.5—(1) In this section.

"dealer" means a vendor who is registered under the *Motor Vehicle Dealers Act* as a motor vehicle dealer;

"demonstrator" means a motor vehicle maintained by a dealer solely for use by the dealer and the dealer's staff to demonstrate the motor vehicle to potential customers;

"motor vehicle" and "gross weight" have the same meaning as that contained in the *Highway Traffic Act*;

"temporary use" means use for a period not exceeding twelve months.

(2) Despite section 15.4, in respect of motor vehicles having a gross weight of 4,100 kilograms or less, purchased for resale by a dealer, but taken out of inventory and put to a temporary use for business or personal use purposes by the dealer's staff, family, customers or others without charge, the dealer shall pay tax each month at the rate specified under section 2 of the Act; the tax shall be calculated in accordance with the following formula:

$$\text{Tax} = \text{ASP} \times \text{VU} \times 3\% \times \text{TR}$$

where,

ASP means total sales (including any taxes payable under sections 3 and 4 of the Act) of new and used motor vehicles sold in the month (before trade-in) divided by the total number of new and used motor vehicles sold in the month;

VU means those motor vehicles, having a gross weight of 4,100 kilograms or less, that are used for business or personal purposes by the dealer's staff, family, customers or others without charge, but does not include demonstrators;

TR is the applicable tax rate.

(3) For the purposes of subsection (2), where a dealer makes no sales during the reporting month, ASP shall be calculated using the total sales and number of new and used vehicles sold in the last previous month that sales were made.

(4) Despite section 15.4, in respect of motor vehicles having a gross weight of more than 4,100 kilograms, purchased for resale by a dealer, but taken out of inventory and put to a temporary use for business or personal use purposes by the dealer's staff, family, customers and others without charge, and not for use as a demonstrator, the dealer shall pay tax each month at the rate specified in section 2 of the Act; the tax shall be calculated in accordance with the following formula:

$$\text{Tax} = \text{FV} \times \frac{1}{36} \times \text{TR}$$

where,

FV is the fair value of the motor vehicle at the time it is purchased for resale by the dealer;

TR is the applicable tax rate.

(5) If a dealer charges a person referred to in subsection (2) or (4) a fee for use of a motor vehicle and the tax payable on the fee is less than the amount of tax that the dealer would have been required to pay under subsection (2) or (4) if no fee had been charged, the dealer shall collect the tax payable under section 2 of the Act from the person and shall pay an amount equal to the difference between,

(a) the tax that would have been payable under,

(i) subsection (2), if VU were equal to one, or

(ii) subsection (4), if no fee had been charged; and

(b) the amount of the tax payable by the person under section 2 of the Act.

(6) The tax payable under this section shall be paid for each full month of temporary use and for each part of a month consisting of thirteen or more days of temporary use, calculated for the time that the motor vehicle is taken out of inventory.

(7) The tax payable under this section shall be remitted at the times and in the manner specified in Regulation 1013 of Revised Regulations of Ontario, 1990 for the delivery of returns and the remission of tax due by the vendor.

(8) Despite subsection (2) or (4), where a motor vehicle purchased for resale is taken out of inventory, used by a dealer and capitalized in the dealer's books and records as a fixed asset, the tax is payable under section 2 of the Act by the dealer on the fair value of the motor vehicle at the time the motor vehicle is taken out of inventory.

(9) In addition to the tax payable under this section, the dealer shall pay the tax levied under sections 3 and 4 of the Act, in full, at the time when the motor vehicle is first put to the temporary use. O. Reg. 784/92, s. 1, *part.*

2.—(1) Subclause 19 (3) (a) (iii) of the Regulation is revoked and the following substituted:

(iii) for a previously owned vehicle that uses any form of energy described in sub-subclause 48 (3) (g) (i) (A) or (B) of the Act, a description of the fuel system written by the person who issued the safety standards certificate for the vehicle;

Environmental Assessment Act
Loi sur les évaluations environnementales

SECTION 14

NOTICE OF APPROVAL TO PROCEED
WITH THE UNDERTAKING

RE: An Environmental Assessment for Highway 6 (New) Hamilton to Caledonia

Proponent: Ministry of Transportation

EA File No.: TC-CE-02

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on October 6, 1992. I received four notices requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking.

Three of the notices requiring hearings relate to the matters dealt with in conditions 1 and 2. In light of the imposition of the conditions, in my opinion, a hearing is unnecessary with respect to those notices. The fourth notice raises issues that were raised by the person submitting that notice in connection with the acceptance of the environmental assessment and I remain of the opinion that a hearing is unnecessary with respect to those issues.

Having considered the purpose of the Act, the Environmental Assessment of the undertaking as accepted and the submissions received, I hereby give approval to proceed with the undertaking, subject to the following terms and conditions:

1. In order to mitigate the significant and unique property impacts resulting from the construction of Highway 6 (New) and the associated relocation of Butter Road, Ministry of Transportation (MTO) is to offer to acquire the affected property at 211 Butter Road East on a willing buyer/willing seller basis at the current open market value. No further mitigation to the property will be required.

2. In order to mitigate the significant property impacts resulting from the construction of Highway 6 (New) and the associated interchange at Airport Road, MTO is to refine the design of the interchange to reduce the amount of woodlot required by modifying the vertical alignment of the highway and associated ramps and constructing a retaining wall along the outer edge of the interchange. The amount of woodlot to be retained will not be less than 70 percent.

3. Except as otherwise provided by these conditions, the undertaking shall be carried out in accordance with the provisions of the Environmental Assessment which are incorporated herein by reference.

REASONS

My reasons for giving approval are:

1. On the basis of the proponent's Environmental Assessment and the Review, the proponent's conclusion that, on balance, the advantages of this undertaking outweigh its disadvantages appears to be valid.

2. No other more beneficial alternative method of implementing the undertaking was identified.

3. On the basis of the proponent's Environmental Assessment the review and the conditions of approval, the construction, operation

and maintenance of the undertaking will be consistent with the purpose of the Act (section 2).

Dated at Toronto this 16th of December, 1992.

O.C./Décret 3640/92

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders that:

Sur la recommandation du soussigné, le lieutenant-gouverneur, sur l'avis et avec le consentement du Conseil des ministres, décrète ce qui suit :

WHEREAS section 14 of the *Environmental Assessment Act* provides that where the Minister of the Environment has accepted an environmental assessment of an undertaking, the Minister may with the approval of the Lieutenant Governor in Council, give approval to proceed with the undertaking subject to such terms and conditions as the Minister considers necessary, or refuse to give approval to proceed with the undertaking;

WHEREAS, having considered the purpose of the Act, the environmental assessment, as accepted, of the undertaking, which is the subject of the attached notice, and the submissions and requirements for a hearing received, the undersigned Minister of Environment considers that a hearing is unnecessary and is of the opinion that the undertaking should be given approval to proceed, subject to the terms and conditions specified in the attached notice; and

THEREFORE, pursuant to the provisions of the *Environmental Assessment Act*, the undertaking which is the subject of the attached notice, be given approval to proceed subject to the said terms and conditions.

Recommended — RUTH GRIER, Minister of the Environment.

Concurred — FRANCES LANKIN, Chair of Cabinet.

Approved and Ordered, December 16, 1992.

2 Le Règlement est modifié par adjonction des formules suivantes :

Notice of Rent Increase

Rent Control Act, 1992

Form 1

To: [Tenant's Name and Address]	**From:** [Landlord's Name and Address]

Your New Rent

On _____, 19____, your rent will increase to $ _____ per _____.
(Month, Week, etc.)

How Your New Rent is Calculated

1. **Your current rent is** $

2. **Your rent increase is** $

Each year the Ministry of Housing sets a "guideline" for rent increases. For 19_____, the guideline is _____%. The guideline cannot be applied to a capital component.

☐ Your rent increase is equal to or less than the guideline amount, or

☐ Your rent increase is more than the guideline amount because:
- ☐ it includes legal increases based on maximum rent, or
- ☐ it is allowed in an Order or Notice of Carry Forward.

3. **Your new rent will be** ..... $

Your new rent includes the following:

Basic Rent		$
Separate Charges	Indoor Parking: ___ Space(s)	$
	Outdoor Parking: ___ Space(s)	$
	Other: _____	$
	Other: _____	$
Capital Component		$
TOTAL RENT		$

Cannot be more than the amount shown on the most recent Order or Notice of Carry Forward issued under the *Rent Control Act, 1992*.

Calculated Maximum Rent

The most a landlord can charge any tenant is the "maximum rent." According to my information, on the date your rent will increase, the maximum rent for your unit will be $_____.

Operating Costs
(Check one)

If there has been an Order under the *Rent Control Act, 1992* that raised the maximum rent by more than the guideline for any unit in the complex, the law requires the landlord to tell tenants what the operating costs have been for the complex for a two-year period. This is not required if the first Order was effective less than 12 months before this rent increase.

☐ These costs are shown on Schedule A which is attached to this Notice.

☐ This section does not apply to your unit.

Important Information

1. A landlord must give the tenant this notice at least 90 days before the date of the rent increase. A landlord can only increase the rent if 12 months have passed since the last rent increase, even if a new tenant moves in.
2. A tenant does not have to renew a lease. If the tenant decides not to sign a new lease, the tenant does not have to move, but the tenancy becomes "month-to-month." If a tenant plans to move, the tenant must tell the landlord in writing at least 60 days before the end of a monthly or yearly rental, or 28 days before the end of a weekly rental.
3. A capital component only exists when there is an Order or Notice of Carry Forward under the *Rent Control Act, 1992* that shows how much the capital component is. The capital component cannot be increased by guideline. It can only be increased by an Order or Notice of Carry Forward under the *Rent Control Act, 1992*.
4. The maximum rent must be calculated to the nearest cent.
5. If you have any questions about this Notice or the rent you should pay, contact the Rent Control Office in your area. The telephone number is in the blue pages of the telephone book under "Government of Ontario -- Housing."

Avis d'augmentation de loyer
Formule 1

Loi de 1992 sur le contrôle des loyers

Destinataire : (Nom et adresse du locataire)	**Expéditeur : (Nom et adresse du locateur)**

Votre nouveau loyer

Le _____ 19___, votre loyer passera à _____ $ par _____.
(mois, semaine, etc.)

Calcul de votre nouveau loyer

1. Votre loyer actuel est de _____ $

2. L'augmentation de votre loyer est de _____ $

Chaque année, le ministère du Logement fixe le taux légal des augmentations de loyer.
Pour 19__, le taux légal est de ___ %. Le taux légal ne peut être appliqué à un élément d'immobilisations.

☐ L'augmentation de votre loyer est égale ou inférieure au montant correspondant au taux légal.

☐ L'augmentation de votre loyer est supérieure au montant correspondant au taux légal pour l'une ou l'autre des raisons suivantes :

☐ Elle comprend des augmentations légales fondées sur le loyer maximal.

☐ Elle est permise par une ordonnance ou un avis de report.

3. Votre nouveau loyer sera de _____ | $

Votre nouveau loyer comprend ce qui suit :

Loyer de base		$
Charges séparées	Stationnement intérieur : _____ place(s)	$
	Stationnement extérieur : _____ place(s)	$
	Autre : _____	$
	Autre : _____	$
Élément d'immobilisations		$
LOYER TOTAL		$

Ne peut être supérieur au montant figurant dans la dernière ordonnance rendue ou dans le dernier avis de report délivré en vertu de la *Loi de 1992 sur le contrôle des loyers*.

Loyer maximal calculé

Le locateur ne peut demander au locataire un loyer supérieur au «loyer maximal». Selon les renseignements à ma disposition, à la date où votre loyer augmentera, le loyer maximal de votre logement sera de _____ $.

Frais d'exploitation (Cocher une case)

Si une ordonnance augmentant d'un pourcentage supérieur au taux légal le loyer maximal d'un logement de l'ensemble a été rendue en vertu de la *Loi de 1992 sur le contrôle des loyers*, la loi exige que le locateur informe les locataires des frais d'exploitation de l'ensemble pour une période de deux ans. Cette exigence ne vaut pas si la première ordonnance est entrée en vigueur moins de 12 mois avant cette augmentation de loyer.

☐ Ces frais figurent à l'annexe A jointe à cet avis.

☐ Cette section ne s'applique pas à votre logement.

Renseignements importants

1. Le locateur doit donner cet avis au locataire au moins 90 jours avant la date de l'augmentation de loyer. Le locateur ne peut augmenter le loyer que si une période de 12 mois s'est écoulée depuis la date de la dernière augmentation de loyer, même si un nouveau locataire emménage dans le logement.

2. Le locataire n'est pas tenu de renouveler le bail. Si le locataire décide de ne pas signer un nouveau bail, il n'est pas obligé de déménager, mais la location devient une location au mois. Le locataire qui a l'intention de déménager doit en aviser le locateur par écrit au moins 60 jours avant la fin d'une location au mois ou à l'année, ou 28 jours avant la fin d'une location à la semaine.

3. Un élément d'immobilisations n'existe que si une ordonnance rendue ou un avis de report délivré en vertu de la *Loi de 1992 sur le contrôle des loyers* en donne le montant. Le taux légal ne peut servir à augmenter un élément d'immobilisations. Ce dernier ne peut être augmenté que par ordonnance rendue ou avis de report délivré en vertu de la *Loi de 1992 sur le contrôle des loyers*.

4. Le loyer maximal doit être arrondi au cent le plus proche.

5. Pour toute question sur cet avis ou sur le loyer que vous devriez payer, veuillez communiquer avec le Bureau de contrôle des loyers de votre région. Le numéro de téléphone du Bureau figure dans les pages bleues de l'annuaire téléphonique sous «Gouvernement de l'Ontario – Logement».

There has been an Order under the *Rent Control Act, 1992* that raised the maximum rent by more than the guideline for units in this complex. The Order showed operating costs for the complex.

Because of this Order, the law requires the landlord to tell tenants what the operating costs for the complex have been for a two-year period. The landlord must do this every time the rent increases.

Below is information about operating costs for a two-year period . Because the law states which two years must be reported, the costs shown may not be for the most recent two-year period.

TABLE OF REGULATIONS

The Table of Regulations shows the regulations contained in Revised Regulations of Ontario, 1990 and those made after December 31, 1990 and before January 1, 1993. It also shows the amendments to those regulations.

Most of the listings are in English only. Some regulations have an official French version. Bilingual regulations are indicated by a bilingual title.

Occasionally numerical, typographical or other clerical errors are made in the publication of the text of regulations. Corrections are published in *The Ontario Gazette*. A schedule of the dates these corrections were published is included at the end of this Table.

The dates on which regulations were published in *The Ontario Gazette* are set out in a table immediately following this Table.

The abbreviation "Rev." means revoked.

The abbreviation "Exp." means expired.

TABLE DES RÈGLEMENTS

La Table des règlements énumère tous les règlements contenus dans les Règlements refondus de l'Ontario de 1990 ou pris après le 31 décembre 1990 mais avant le 1er janvier 1993. Elle indique également les modifications apportées à ces règlements.

La plupart des entrées ne figurent qu'en anglais. Quelques règlements ont une version officielle en français et leur titre est indiqué dans les deux langues.

À l'occasion, des erreurs d'écritures, notamment d'ordre numérique ou typographique, se glissent dans le texte des règlements qui sont publiés. Des corrections sont publiées dans la *Gazette de l'Ontario*. Les dates auxquelles ces corrections ont été faites figurent dans l'annexe qui se trouve à la fin de cette Table.

Les dates auxquelles les règlements ont été publiés dans la *Gazette de l'Ontario* figurent dans la table qui suit celle-ci.

L'abréviation «Rev.» indique que le règlement est abrogé.

L'abréviation «Exp.» indique que le règlement est périmé.

REFRIGERATION PLANTS AND INSTALLATIONS

26.3 In sections 26.4 to 26.6,

"ANSI/ASHRAE 34-1992" means the 1992 edition of Standard 34 "Number Designation and Safety Classification of Refrigerants" of the American Society of Heating, Refrigerating and Air-Conditioning Engineers Inc.;

"CAN/CSA-B52-92" means the 1992 edition of Standard B52 Mechanical Refrigeration Code of the Canadian Standards Association;

"Category 1 refrigerant" means a refrigerant classified into safety group A1 refrigerants established by ANSI/ASHRAE 34-1992;

"high pressure" means, in respect of a refrigeration unit, that all or part of the refrigerant circuit of the refrigeration unit is intended for and used at a pressure of more than 103 kPa;

"unattended" means operated without the appointment of a chief operating engineer or chief operator and without an operating engineer or operator on duty providing supervision. O. Reg. 46/93, s. 1, *part.*

26.4—(1) A refrigeration plant or installation that is comprised of only high pressure refrigeration units using Category 1 refrigerants may be operated unattended if,

(a) all refrigeration units have non-positive displacement compressors;

(b) no refrigeration unit rating is more than 1000 kW;

(c) no refrigeration installation rating is more than 3000 kW; and

(d) every refrigeration installation is equipped with the systems, devices and controls referred to in subsections (2), (3) and (4).

(2) A refrigeration installation referred to in subsection (1) shall be equipped with,

(a) an audible and visible alarm system that, if any potentially unsafe condition is indicated by a protective device,

(i) gives a warning to the operating engineer or operator or any other person who is located in the plant and is in charge of the installation, and

(ii) continues to give a visible warning until the potentially unsafe condition is rectified or the installation is safely shut down;

(b) an automatic control system that controls the installation when the operating engineer, operator or any other person in charge of the installation leaves the controls of the installation;

(c) protective devices and controls, including pressure relief devices, required by the *Boilers and Pressure Vessels Act* or the regulations under that Act;

(d) fail-safe devices required by subsection (3) which shall, if a potentially unsafe condition occurs, interrupt the supply of energy to the refrigerant compressor prime movers and prevent the installation from restarting under automatic control or under remote control; and

(e) such other devices as are necessary to allow the installation to be operated safely.

(3) For the purposes of clause (2) (d), the following devices are required:

1. A refrigerant high pressure limiting device in the refrigerant discharge line from the compressor.

2. A refrigerant high liquid level limiting device in the evaporator or the refrigerant suction accumulator, unless the design inherently prevents the possibility of liquid refrigerant being drawn into the compressor.

3. A low flow limiting device in the condenser coolant circuit, if the refrigerant coolant is liquid cooled.

4. A low flow limiting device in the compressor coolant circuit, if the compressor is liquid cooled.

5. A low oil pressure limiting device, if a pressurized lubricating oil system is used.

(4) A refrigeration installation referred to in subsection (1) and located in a machinery room shall be equipped with a gas detector system that will activate the alarm system required by clause (2) (a) and start a mechanical ventilation system if there is a leak of Category 1 refrigerant causing,

(a) the oxygen level in the room to fall below 19.5 per cent by volume; or

(b) the airborne concentration of refrigerant to rise above the "immediately dangerous to life or health" limit as defined by CAN/CSA-B52-92.

(5) For the purpose of subsection (4), "machinery room" means a machinery room as defined by CAN/CSA-B52-92.

(6) A refrigeration installation referred to in subsection (1) shall comply with CAN/CSA-B52-92 and shall be installed and operated so as to ensure public safety. O. Reg. 46/93, s. 1, *part.*

26.5—(1) A user of a refrigeration installation that is to be operated unattended under section 26.4 shall ensure that,

(a) all controls, devices and systems required by that section are provided to the installation and tested and calibrated regularly; and

(b) records of tests and calibrations are kept in a log book for the plant.

(2) A user of a refrigeration installation that is to be operated unattended under section 26.4 shall ensure that the operating engineer or operator or any person in charge of the installation is instructed,

(a) not to start the installation if any control, device or system required for it by section 26.4 is not functioning properly; or

(b) to bring the installation to a safe stop immediately if the installation is operating when it is discovered that any control, device or system required by section 26.4 has ceased to function properly.

(3) A person operating a refrigeration installation that is unattended under section 26.4 shall comply with clauses (2) (a) and (b).

(4) If a refrigerant leak from an installation is indicated by the system required by subsection 26.4 (4), the user or the person in charge of the installation shall warn anyone who may be endangered by the leakage and take steps immediately to stop the leakage. O. Reg. 46/93, s. 1, *part.*

Environmental Assessment Act
Loi sur les évaluations environnementales

NOTICE OF ACCEPTANCE OF
THE ENVIRONMENTAL ASSESSMENT AND
NOTICE OF APPROVAL TO PROCEED
WITH THE CLASS OF UNDERTAKINGS

RE: A Class Environmental Assessment for Remedial Flood and Erosion Control Projects

Proponent: The Association of Conservation Authorities of Ontario (ACAO)

EA File No.: CAA-AA-03

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above Environmental Assessment and/or its Review, provided for in the *Notice of Completion of Environmental Assessment Review*, dated October 31, 1992, expired on December 1, 1992. I received one submission by that date. The concern expressed in that submission has been resolved between the ACAO, the Ministry of the Environment and the submitter by condition 7 of this approval. No requirements for a hearing were made to me by December 1, 1992. I do not consider it advisable to require a hearing.

ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

Having considered those matters set out in Section 8 and pursuant to Section 9, I accept the Class Environmental Assessment.

APPROVAL OF THE CLASS OF UNDERTAKINGS

Under Section 13 of the Act, before the decision on approval to proceed with the class of undertakings can be made, the proponent has the opportunity to require a hearing by the Environmental Assessment Board. The proponent has waived this right.

Having considered the purpose of the Act, the Environmental Assessment of the class of undertakings as accepted and the submissions received, I hereby give approval to proceed with the class of undertakings subject to the following terms and conditions:

1. The ACAO shall revise its Class EA in the manner prescribed in the recommendations categorized "substantive" and "clarification" from the review of this Class EA published October 31, 1991. In addition, the ACAO shall also revise its Class EA in the following three areas:

   DELETE the first bullet point from page 49 of the Class EA and REPLACE it with:

   - A list of remedial flood and erosion control projects that have been undertaken and an identification, where possible, if post-1992 development was the cause, or was affected by, the problem situation in each of the projects. As well, for each project, the selection of documentation level, as set out in Section 3.7.2 of the Class Environmental Assessment, shall be identified.

   REVISE the first bullet point from page 29 to read:

   - The situation or problem to be addressed, including the cause of the problem (identifying, where possible, if the problem is the result of post-1992 development), the history of the problem (identifying if the problem is affecting pre or post-1992 development) and the level of risk.

   ADD the following sentence between the first and second sentences of paragraph 2, page 49:

   - "A copy of the summary report will be made available through the ACAO upon request."

2. The ACAO shall publish the approved Class EA, with the revisions required in condition 1, for use by its member Authorities by April 1, 1993.

3. The ACAO Class EA shall not apply to undertakings carried out pursuant to the exemptions provided in clauses 8 (2) (d), 8 (2) (f), 8 (2) (g) and 8 (2) (h) of Ontario Regulation 334 (R.R.O. 1990).

4. The approval of this Class EA shall be for a five year period.

5. This approval revokes the approval of the *Class EA for Water Management Structures*, as amended in 1991, except in the case of municipalities which will continue to use that Class EA until amendments to the Municipal Engineers Associations' *Class Environmental Assessment for Municipal Sewage and Water Projects* respecting municipal flood and erosion control projects are approved.

6. Condition 5, above, supercedes Recommendation 28 from the review of the ACAO *Class EA for Remedial Flood and Erosion Control Projects*.

7. This Class EA shall only be used for the planning and design of Conservation Authority remedial flood and erosion control projects. It shall not be used for the planning and design of projects which facilitate future development.

REASONS

The reasons for giving approval are:

1. A class environmental assessment approval is appropriate for this class of remedial flood and erosion control undertakings. Since 1986, Conservation Authorities have planned and implemented these undertakings in accordance with a Class EA approval. This experience has demonstrated that the purpose of the *EA Act* is adequately met through Conservation Authorities' compliance with their Class EA.

2. The new *Class EA for Remedial Flood and Erosion Control Projects* is a significant improvement over the current *Class Environmental Assessment for Water Management Structures*. With the revisions to the new Class EA which the ACAO are required to perform under condition 1 of this approval, I am confident that the new Class EA will provide an efficient, effective and environmentally conscientious process by which this class of remedial flood and erosion control projects will be planned and implemented.

3. The planning of all Conservation Authority remedial flood and erosion control projects in Ontario in accordance with one process will benefit the environment and the public in their understanding of the planning process.

4. The review of the ACAO Class EA published on October 31, 1992 recommended that I approve the class of undertakings covered by the Class EA subject to the recommendations of the review being adopted. I have received no public objections respecting the ACAO Class EA nor its review. Therefore, I am acting on the above-noted recommendation.

Dated at Toronto this 27th day of January, 1993.

LEASES FOR THE PRODUCTION OF PETROLEUM AND NATURAL GAS FROM CROWN LANDS UNDER WATER

1. In this Regulation,

"pool" means an underground accumulation of petroleum or natural gas or both, separated or appearing to be separated from any other such underground accumulation;

"posted price" means the price of different qualities of petroleum established and issued by the purchaser of petroleum;

"spacing unit" has the same meaning as in section 1 of the *Petroleum Resources Act*;

"unitization agreement" means an agreement providing for the combining of separately owned petroleum or natural gas interests in a pool, formation or field to permit the efficient and economical drilling for or production of petroleum, natural gas or other unitized substances. O. Reg. 72/93, s. 1.

2.—(1) The Minister may lease petroleum and natural gas rights in Crown lands that are under the bed of any river or lake to permit the production of petroleum or natural gas.

(2) Subsection (1) applies only with respect to Crown lands lying south and east of the River Mattawa, Lake Nipissing and the French River.

(3) The petroleum or natural gas shall be produced only from a wellhead located on dry land.

(4) A lease to produce petroleum includes the right to produce any gas in solution with the petroleum and any natural gas in a gas cap overlying the petroleum pool.

(5) A lease to produce natural gas includes only natural gas capable of being produced alone or, at the time of initial production, in association with no more than one cubic metre of petroleum for every 3600 cubic metres of natural gas.

(6) A lessee shall not drill a well on the land in respect of which petroleum or natural gas rights are leased under this Regulation.

(7) A lessee may conduct geophysical surveys designed for water-borne operations. O. Reg. 72/93, s. 2.

3.—(1) Every application for a lease shall be accompanied by,

(a) a fee of $250;

(b) the rent for the first year of the term of the lease; and

(c) a plan and description of the land in respect of which the applicant is applying to lease the petroleum or natural gas rights.

(2) The Minister may grant a lease to the applicant or may offer for sale by tender the right to obtain a lease.

(3) The term of a lease is five years.

(4) The successful applicant shall provide the Minister with a legal description and plan of the land in respect of which the petroleum or natural gas rights are to be leased, both of which are in a form capable of being registered against the land.

(5) It is a condition of a lease that the lessee shall,

(a) permit the Minister to inspect the records of the production or sale of the petroleum or natural gas produced under the lease;

(b) permit the Minister to inspect the records of the costs incurred in the transportation of the petroleum that is produced under the lease from the wellhead to the point at which the posted price is determined or to the point at which the lessee transfers custody of the petroleum;

(c) use reasonable diligence to produce and market petroleum or natural gas under the lease; and

(d) carry out all activity in connection with the drilling, production and plugging of the well that produces the petroleum or natural gas under the lease in accordance with provincial and federal laws. O. Reg. 72/93, s. 3.

4.—(1) The minister may renew a lease for a term of up to five years.

(2) The renewal may cover the petroleum or natural gas rights in all or part of the land in respect of which rights were originally leased.

(3) An application for renewal shall be made to the Minister at least ninety days before the expiry of the lease and shall be accompanied by,

(a) a fee of $100; and

(b) the rent for the first year of the term of the renewed lease.

(4) If the lease is being renewed for only part of the land in respect of which rights were originally leased, the lessee shall provide the Minister with a plan and description of the remaining land in respect of which petroleum or natural gas rights are to be leased, both of which are in a form capable of being registered against the land.

(5) A lease shall not be renewed unless the land in respect of which petroleum or natural gas rights have been leased is,

(a) within a spacing unit of an existing well producing or capable of producing a commercially viable quantity of petroleum or natural gas;

(b) within the spacing unit of a well to be drilled before the expiration of the lease; or

(c) under a unitization agreement. O. Reg. 72/93, s. 4.

5. A lease may be assigned on the consent of the Minister and on the payment of a fee of $100. O. Reg. 72/93, s. 5.

6.—(1) The lessee may surrender all or part of the land in respect of which petroleum or natural gas rights are leased by giving thirty days notice to the Minister.

(2) The surrender takes effect when the Minister consents to the surrender.

(3) The lessee is not entitled upon surrender to a refund of any payment made under the lease.

(4) If the petroleum or natural gas rights in only part of the land are being surrendered, the lessee shall provide the Minister with a description and plan of the land in respect of which rights are not to be

surrendered, both of which are in a form capable of being registered against the land. O. Reg. 72/93, s. 6.

7.—(1) A lessee under a lease shall pay the rent and royalty set out in sections 8 and 9.

(2) If the rent or royalty set out in this Regulation is changed during the term of the lease, the payments made by the lessee following the change shall be on the basis of the new rent or royalty. O. Reg. 72/93, s. 7.

8. The rent is $5 per hectare of land in respect of which petroleum or natural gas rights are leased, payable annually in advance. O. Reg. 72/93, s. 8.

9.—(1) Subject to section 10, the royalty that is payable is 12 1/2 per cent of the fair market value of the petroleum or natural gas that is produced from the land in respect of which petroleum or natural gas rights are leased.

(2) The royalty in respect of petroleum or natural gas produced in a month is payable on or before the end of the following month.

(3) Subject to subsection (4), the fair market value of petroleum shall be deemed to be the posted price of the petroleum minus the lessee's reasonable transportation costs for transporting the petroleum from the wellhead to the point at which the posted price is determined.

(4) If no posted price has been determined for petroleum, the fair market value of petroleum shall be deemed to be the sale price of the petroleum minus the lessee's reasonable transportation costs for transporting the petroleum from the wellhead to the point at which the lessee transfers custody of the petroleum.

(5) Subject to subsection (6), the fair market value of natural gas shall be deemed to be the full sale price that the lessee receives at the point at which the lessee transfers custody of the natural gas, without any deduction being made for the lessee's costs.

(6) If the lessee does not sell the natural gas at its fair market value, the Minister shall determine the fair market value based on the sale price of similar quantities and qualities of natural gas in the same market.

(7) No royalty is payable in respect of natural gas reasonably required by the lessee as fuel for the production of petroleum or natural gas from the land in respect of which petroleum or natural gas rights are leased.

(8) The lessee shall accurately measure the quantity of petroleum or natural gas that is produced under the lease before it is combined with the production from other land.

(9) The volume of natural gas produced shall be calculated at standard conditions of 101.324 kilopascals absolute and 15° Celsius. O. Reg. 72/93, s. 9.

10.—(1) If the petroleum or natural gas interests under a lease are within a spacing unit and all of the petroleum or natural gas interests in the spacing unit are pooled under an agreement combining all of the interests, the Crown's percentage of the production from the spacing unit shall equal the percentage of the area of the spacing unit that is under the lease.

(2) If the land in respect of which petroleum or natural gas rights are leased is included in a unitization agreement, the Crown's percentage of the production shall be the amount allocated to the Crown according to the terms of the unitization agreement.

(3) When the Crown's share of the production has been determined under subsection (1) or (2), the royalty payable shall be calculated under section 9 based on the fair market value of the Crown's percentage of the production. O. Reg. 72/93, s. 10.

11.—(1) If a lessee is in default under a lease, the Minister may give written notice of the default to the lessee, setting out the nature of the default.

(2) A notice of default sent by mail shall be deemed to have been received by the lessee on the fifth day after the date of mailing, unless the contrary is shown.

(3) The Minister may terminate the lease without liability and without compensation to the lessee if the lessee does not remedy the default to the Minister's satisfaction within thirty days after the notice of default is received by the lessee. O. Reg. 72/93, s. 11.

ONTARIO REGULATION 74/93
made under the
ENVIRONMENTAL ASSESSMENT ACT

Approved: February 12th, 1993
Filed: February 23rd, 1993

EXEMPTION—THE CORPORATION OF THE TOWNSHIP OF ALICE AND FRASER, THE CORPORATION OF THE CITY OF PEMBROKE, THE CORPORATION OF THE TOWNSHIP OF PETAWAWA, THE CORPORATION OF THE TOWNSHIP OF PEMBROKE, THE CORPORATION OF THE TOWNSHIP OF STAFFORD, THE CORPORATION OF THE TOWNSHIP OF WILBERFORCE, THE CORPORATION OF THE VILLAGE OF PETAWAWA, THE CORPORATION OF THE CFB PETAWAWA—ALIC-TP-1

Having received a request from The Corporation of the Township of Alice and Fraser, the Proponent, on behalf of itself and the other members of the Alice and Fraser Area Sanitation Management Board listed above, that an undertaking, namely:

> The proposal to continue to operate the Alice & Fraser waste disposal site and extend the existing fill contours and operate as an interim measure, the existing approved Alice & Fraser Landfill Site located on parts of lots 23, 24, 25 and 26, Concession 1, Township of Alice and Fraser, County of Renfrew, for the disposal of domestic, commercial and non-hazardous solid industrial wastes with the changes as described in the application entitled "Application for Approval for an Interim Expansion of the Township of Alice and Fraser Sanitary Landfill" prepared by J. L. Richards & Associates Limited and Golder Associates Ltd.,

be exempt from the application of the *Environmental Assessment Act* pursuant to section 29; and

Having been advised by the Proponent that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The Proponent and other members of the Alice and Fraser Area Sanitation Management Board, will be subject to delay and expense if it is required to prepare an environmental assessment for the undertaking.

B. The municipalities and their residents will be without economic and secure access to a municipal solid waste disposal facility.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. Use of the existing landfill by the municipalities is clearly an interim measure for which there are no other reasonable waste management alternatives which can be implemented within the necessary time frame.

B. Alternatives have been investigated.

C. A public hearing under Part V of the *Environmental Protection Act* for the approval of the expansion of the fill contours will be held.

D. The Alice and Fraser Area Sanitation Management Board is supporting the Pembroke and Area Waste Management Master Plan's development of a long term waste management program.

This exemption order is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.

2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.

3. No waste shall be disposed of by the municipalities pursuant to this order after the earlier of:

   (i) five years after a Provisional Certificate of Approval for the waste disposal site has been issued pursuant to this order, and

   (ii) the commencement of operations of a waste disposal site pursuant to the Pembroke and Area Waste Management Master Plan,

unless an application for an approval under the *Environmental Assessment Act* for an undertaking under the Pembroke and Area Waste Management Master Plan which includes a waste disposal site at which waste from the municipalities listed above may be disposed, has been submitted to the Minister under the Act, in which case, no waste shall be disposed of by the municipalities pursuant to this order more than one year after a decision is made under the Act to approve or not approve the undertaking. (4) The fee in respect of a pupil referred to in subsection (1) who is enrolled in a high cost program may be increased by multiplying the fee by a factor agreed upon by the board and party from whom the fees are receivable when,

(a) the ratio of the A.D.E. of such pupils registered in a high cost program for whom fees are receivable by the board from such party to the A.D.E. of pupils enrolled in such high cost program conducted by the board,

is greater than,

(b) dividing the amount determined under clause (a) by the sum of the days on which each pupil is enrolled at the school; and
